

OnCornerRound

OnCornerRound

OnCorner Round is about maximum flexibility. Each spot can freely be adjusted by its ball joint, and further more, it can be rotated 360 degrees on its vertical axis.

It utilises 20 degree lenses for focused light - perfect for creating that crisp and sparkling appearance of objects.

Color rendering: CRI > 90
Color temperature CCT: 3000K, 4000K
Luminous flux: 400lm (4 chips)
Efficacy: 100lm/W
Power consumption: 1W/chip
Lens: 30dg
Voltage: CC 150mA
Lifetime: hours
Guarantee: 2 years
Protection: IP 20
Color options: Rose Gold, Silver, Black
Dimensions (WxDxH): Ø24, H280
